Arguments at Relief Centre

NON VICTIMS REGISTERING AS VICTIMS

- Re- registration (spouse)
- Un-complete particulars

INCIDENT CENTER MANAGEMENT

- Presumptuously requesting food supply、 even asking volunteers to provide food delivery services
- Relying on volunteers for their every needs
- Providing false rumors to the outside world regarding relief operations

SHARING WITH CARE

- Many of the staff at the incident center are also disaster victims
- The Japanese tsunami in 2011 has shed light on how Japan deals with large scale disasters. This should be taken as a lesson for other countries when adopting new disaster preparation policies.

Crisis Relief

Donation Drive

Community Based Disaster Management

- How ?

1. Enhance leadership, fulfill individual responsibility.
2. To strengthen management and control the relief aids, funds and etc
3. Strictly control of relief funds, aid distribution program, be open, fair, just and accept supervision by the masses.
4. Repair damaged construction works according to standardized procedures to ensure that reconstruction projects are of high quality and meets the scheduled deadline.
5. Strict discipline of volunteers and disaster relief personnel is also important in order to safeguard operational security.

- Auditing and assessment

1. To strengthen supervision to ensure that reconstruction work is carried out properly.
2. Understand the implementation of the reconstruction work, coordinate and solve problems when it arises.
3. Post-disaster reconstruction relies on the volunteers and emergency workers as a capable unit. As such, team cohesion is vital during relief efforts.

VOLUNTEER MENTALITY & PSYCHOLOGY

- YOU ARE THERE TO HELP WITH THE CRISIS, NOT TO CREATE NEW ONES
- EXPERIENCE NEW WAYS OF INTERACTING WITH NEW PEOPLE
- ALWAYS BE TRUE TO THE SPIRIT OF VOLUNTEERISM
- KNOW YOUR OWN ABILITY
- PREPARED TO FACE ANY POTENTIAL DANGERS OR THREATS
- VOLUNTEER ACTIVITIES CAN BE USED TO RECRUIT NEW VOLUNTEERS

ARE YOU WILLING TO EXPLORE NEW BOUNDARIES?
